

RESPONSE

In response to the Office Communication dated January 9, 2008, setting forth a Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures (a copy of which is enclosed), Applicants have amended claims 26 and 39 to add the appropriate sequence identifier. The sequence disclosed in claims 26 and 39 is contained in the Sequence Listing filed on September 23, 2005, and was also disclosed and identified by the appropriate sequence identifier number in the substitute specification filed on September 23, 2005 (see, for example, p. 10, ln. 8). Therefore, no substitute Sequence Listing or substitute computer readable form (CRF) of the Sequence Listing is believed to be required. No new matter is introduced by this amendment.

Should the Examiner have any questions or comments regarding this matter, a telephone call to the undersigned Applicants' representative is earnestly solicited.

Respectfully submitted,
